Brooklyn, New York | +1 (929) 509-3414 | franklin.gahary@gmail.com | <https://www.linkedin.com/in/ervif/>

PROFESSIONAL SUMMARY

I build the systems that let Founders and CEOs sleep at night. I specialize in scaling infrastructure, eliminating process debt, and unifying cross-functional teams. With over 10+ years of cross-functional leadership (BizOps, HR, Finance, Data) with 3+ years of hands-on AI integration, I act as the central operational nucleus for high-growth companies. Bringing order to chaos is what I do best. I don't just wear multiple hats; I build the engines that make every department run faster and smarter.

CORE COMPETENCIES

- **Data Analytics:** SQL, Google Data Studio, Virtual Data Rooms (VDR)
- **Remote Stack:** Slack, Loom, Zoom, Notion, Confluence, Asana, Jira
- **Product & Prototyping:** Figma, Bubble.io, Miro, Wireframing, MVP Development
- **Financial & Sales Ops:** Salesforce Admin level, HubSpot, Bill.com, QuickBooks, Stripe
- **People & Compliance:** Workday, Rippling, ADP, BambooHR, Lattice, CultureAmp, Vanta (SOC2/GDPR)
- **AI Strategy & Automation:** AI Agent Orchestration, LLM Automation, Zapier, Quickbase, Claude Cowork, Gemini,

Independent Consultant

Jan. 2025 – Present

- Designed and deployed automated, real-time dashboards (via Claude Cowork) tracking customer health and retention, giving leadership instant visibility into daily platform performance
- Redesigned the core workflow logic of a complex scheduling system and fine tuned an AI triage, to vastly improve data accuracy, system stability. and
- Trained and fine-tuned AI prompt logic to act as a digital bouncer, automatically filtering out email spam and promotional noise so users only see critical logistics while recognizing hidden user needs based on semantics
- Overhauled the backend interface used by the support team, streamlining error tracking and resolution — cutting ticket handling time and improving SLAs
- Gathered direct and indirect feedback from customers and VIPs through 1:1 calls, survey and social media to bridge the gap between product

CareAcademy | Chief of Staff / Head of Operations

Jan. 2021 – Dec 2024

Strategic Initiatives (Chief of Staff Focus):

- Directed the development and execution of all large-scale cross-functional projects as the lead Project Manager. Managed timelines, resources, ran daily SCRUMS, and ensured all teams were aligned on deliverables.
- Secured \$20M Series B Funding and managed the Virtual Data Room (VDR) and investor due diligence. Worked directly with the Board and Legal to build the pitch deck and financial models that closed the round.
- Reduced content production time from 360 hours to 133 hours by leveraging integrations, AI, and improving workflows to increase team productivity without increasing headcount.
- Drove a 20% revenue increase by redesigning pricing structures and offerings in collaboration with Product and Revenue teams, aligning technical roadmaps with business OKRs.

- Cut invoice processing time by 70% and overdue receivables by 30% by integrating QuickBooks and Bill.com to streamline monthly customer billing cycles

Operational Excellence (Director of Ops Focus):

- Built the company's operational foundation from the ground up, establishing the Biz Ops, HR, Finance and Billing teams while writing all HR policies, SOPs and recruiting, interviewing, and hiring team members.
- Managed the entire Order to Cash Process and all billing, collections, cash applications, write-offs, escalations and accounts receivables through HubSpot and Salesforce
- Eliminated manual customer onboarding by automating the entire process using Asana, Zapier, and ChatGPT — cutting manual admin work by 80%, reaching full automation, and improving customer NPS and productivity
- Conducted regular coaching and training sessions to develop team skills in product knowledge, and customer communication to improve sales conversion metrics and customer retention

Director of Operations | 5 Star Stay

January 2018 – August 2020

- Built a recruitment and training pipeline that scaled the team from 3 to 50 within 12 months, reducing hiring lead times while rapidly growing \$100k annual portfolio to \$1.5M.
- Led distributed operations across multiple international jurisdictions, standardizing onsite workflows and ensuring strict adherence to regional labor laws and contractor SLAs.
- Built the company's first annual performance review process (PDP), which improved employee satisfaction scores by 20% and standardized compensation discussions.
- Created a quantitative "Vendor Scorecard" system to track external partners, forcing them to meet strict performance standards

Additional Experience

- **Manhattan Renovations, Assistant Director of Operations** | January 2017 - January 2018
- **TD Bank, Lead Teller** | January 2016 - January 2017
- **Bank of America, Virtual Teller** | January 2014 - January 2017

EDUCATION

- **Bachelor of Arts: Business Administration and Communication**, Florida State College
- **Project Management Professional (PMP)**, Cornell University
